New Intermac 3-axis CNC cutting machine

We bought a brand new high precision cutting machine from Intermac. It has 4 loading racks which allow us to stock 4 different stock sheets. We can make the best cutting yield selection immediately instead of having to replace glass packs.

This cutting machine not only cuts precisely but also automatically positions the template or glass samples. It can make CAD drawings by scanning the template if the customer does not have a drawing. We will start to use this machine in the middle of October, 2013.

Intex's Heat Soaking Oven

Heat Soaking is a process in which a pane of tempered glass is subjected to temperatures up to 280 C for several hours over a specific temperature gradient to minimize the risk of spontaneous breakage affecting tempered glass.

We own two high-efficient Heat Soaking chambers. The max size of the glass we can process is 5000mm x 2500mm.

People born in the year of Rabbit

In ancient China there was a tale of a rabbit sitting under a tree in the moonlight while holding the elixir of immortality in its hands. That is why the rabbit is the emblem of longevity due to its high reproductive rate.

People born in the year of Rabbit are usually docile with symbolizes graciousness and good manners. They are a little introverted but talented. They have great ambitious and excellent taste. They are always articulate and conscientious, never back out of any contract.

They are mostly smart and have sharp business acumen, astute at striking bargains. They are so familiar with the knack for negotiation, that they can always pop up with a suitable proposal or alternative. Because of that, they are always financially lucky. With their pleasant manners, they always embody all the desirable traits of a successful diplomat or seasoned politician.

The year of rabbit will be placid and a temperate year with unhurried pace. Life style will be languid and leisurely.

Here we would like to share with you a poem written by Sushi (Song Dynasty in the year of 1077 of ancient China). It is the most famous poem (no one) to express the will of reunion with family members on the Mid-autumn Day. It was translated into English by Lin Yutang---the famous litterateur in recent China. Hope you will like it.

To the tune of Water Melody

---The Mid-autumn Festival

How rare the moon, so round and clear!
 With cup in hand, I ask of the blue sky,
 I do not know in the celestial sphere what name this festive night
 goes by?
 I want to fly home, riding the air,
 But fear the ethereal cold up there, the jade and crystal
 mansions are so high!
 Dancing to my shadow, I feel no longer the mortal tie.
 She rounds the vermilion tower,
 Stoops to silk-pad doors,
 Shines on those who sleepless lie.
 Why does she, bearing us no grudge, shine upon our parting,
 reunion deny?
 But rare is perfect happiness—the moon does was, the moon
 does wane, and so men meet and say goodbye.
 I only pray our life be long,
 And our souls together heavenward fly!
