Glass Whiteboard

Glass whiteboard is more and more popular in company meetings room due to its crystal clear colors, and its attractive and durable character. Glass whiteboard stays clean and smooth after writing and erasing over thousands of times (the normal whiteboard becomes dirty, black and hard to clean).

The glass whiteboard produced by Intex Glass is using high-quality tempered glass with a multilayer baking paint. Its perfectly smooth texture gives the meeting room a bright and fashionable look while also assuring safety.

Color Palette

Thickness(mm)	Height(mm)	Width(mm)
4	600	900

New Water Cutting Machine

We purchased another new water jet, our production capability and speed for notching and cutting shaped glass are now doubled.

New Drilling Machine

We purchased a new automatic drilling machine, which combines with a washing machine. It could drill two holes at a time. There is an automatic induction device, the glass can be induced in a certain distance outside, which could precisely position the glass and hole locations. After drilling, the glass will be washed and inspected on the same machine instead of moving the glass to an individual washing machine.

Karaoke Contest for Celebrating Lantern Festival

Rainy and Wendy sang a popular song in China, they look amazing after wearing the beautiful performing clothes, aren't they?

The annual Lantern Festival was on February.14th, 2014.We held the Karaoke contest. Don Wang (one of our sales coordinators) got involved in the male host, he was an actor of stage play and had a lot of experience in acting, so it is easy for him to host the game.

At the end, the girls from export department performed a perfect dance--- Chillout Remix, which is from Sutra. The Buddha advocates the equality of all beings. The nature, human beings and animals have a strong relationship and influence between each other, only when we respect each other, all can have a harmonious development.

Happy Buffet

In China, there is a hot word 'Chi huo', it stands for the people who like eating so much, or you can call them glutton.

The highest level of a 'Chi huo' is holding themselves against the wall (too hungry to keep standing) to go into the cafeteria, and holding against the wall to come out of the cafeteria (eat too much to stand).

If you know these two words and the meaning of 'hold against the wall', you can make many friends in China.

March. 14th was a good day, we went to a teppanyaki cafeteria. We were immediately attracted by the fresh salmon, tuna, cheese shrimps, lamb chops, goose liver, numerous sushi and drinks etc....

When we were seated, I found every one became a monster that I never knew. I want fish, I want steak, I want shrimp, I want...

The poor cook kept cooking for 2 hours without resting. I sometimes worried he would throw the knives to us, fortunately he didn't do that when we finally left half an hour later.

If you are interested in knowing who is a real ' Chi huo ' in our department, please contact us, I am sure you will be very surprised.
