Happy Holidays & Season's Greetings

With Christmas and the New Year behind us, the Chinese New year is usually not far behind. In 2011 China enters the year of the rabbit on February 3rd.

Factory-applied Coating for Shower Door Glass

We now are offering a permanent protective coating for shower door glass to reduce maintenance and cleaning. The coating uses the nano technology of an established company to create an invisible protective shield that chemically reacts with the glass to produce a permanent bond. Cleaning of shower doors becomes much easier and can also be less regular. Being factory-applied it offers cost savings as well while coming with a warranty.

Renewal Audit of ISO 9001 Certification and Application for ISO 14001

We successfully passed the renewal audit for ISO 9001:2008 and extended the validity by another 3 years. ISO 9001 is a series of documents that define requirements for the Quality Management System Standard.

ISO 14001 specifies the requirements for an Environmental Management System (EMS). An EMS identifies and controls the significant environmental impact of a company's activities, products or services. We passed the associated audit and received the certificate.

English Language Training

The Intex group of companies continuously arranges training programs for its employees as part of its corporate culture. The photos below were taken during the most recent English language training for several people of the export administration department. The training aims to enhance the listening comprehension as well as the spoken English so they can communicate more fluently with customers.

▲ Concentration on the lecture

▲ Shared group experience

End of 2010 order crush

With most economies outside of China still in the doldrums we appreciate that a lot of our customers put in several orders responded to our recommendation to put in their yearend orders early. It will allow us for much better planning the production times just before and between the “2 New Year” periods.
